<sup>(</sup>b) Under this section, information is material to patentability when it is not cumulative to information already of record or being made of record in the application, and

<sup>(1)</sup> It establishes, by itself or in combination with other information, a prima facie case of unpatentability of a claim; or

<sup>(2)</sup> It refutes, or is inconsistent with, a position the applicant takes in:

<sup>(</sup>i) Opposing an argument of unpatentability relied on by the Office, or

<sup>(</sup>ii) Asserting an argument of patentability.

A prima facie case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the preponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.
